

Laura Reyes Senior Full Stack Developer

Montevideo, Uruguay | laurareyeslarrosa@gmail.com

linkedin.com/in/laura-reyes-a1291946 | github.com/laurareyeslarrosa

Senior Full Stack Developer with over 10 years of experience, specialized in building scalable, high-performance web applications using Angular, TypeScript, React and .NET. Experienced in modernizing legacy systems, leading complex migrations and designing robust frontend architectures, including Domain-Driven Design (DDD) approaches and reusable component systems.

Strong background in performance optimization, technical decision-making, and reducing technical debt, with proven impact on user experience, engagement and business outcomes.

Comfortable working in Agile environments, collaborating across teams, mentoring developers, and ensuring high standards through clean code, SOLID principles, testing and CI/CD practices.

Professional Experience

Full Stack Developer – Switch Software Solutions | 2020 – 2026

- Led the refactoring and modernization of a legacy web portal, improving architecture, maintainability and scalability.
- Implemented a Domain-Driven Design (DDD) approach, restructuring the application to better reflect business logic and domain boundaries.
- Redesigned the frontend using Sass, responsive design and mobile-first principles, significantly improving usability across devices.
- Reduced technical debt by removing deprecated libraries and optimizing dependencies, improving performance and long-term maintainability.
- Delivered improvements in performance and user experience, contributing to increased user engagement, traffic and conversions.
- Led the upgrade of Angular applications from version 17 to 20 across 5 production portals, ensuring stability and continuity.
- Executed migrations in isolated branches, continuously syncing with the main development branch to integrate parallel changes.

- Implemented unit and smoke testing strategies, preventing regressions and ensuring safe releases.
- Resolved breaking changes and dependency conflicts, ensuring compatibility with updated frameworks and libraries.
- Developed and maintained scalable web applications using Angular, TypeScript and JavaScript following mobile-first principles.
- Designed and implemented reusable component architectures, improving development efficiency and code quality.
- Actively contributed to technical decisions, code reviews and team mentoring, raising overall engineering standards.
- Collaborated with design and backend teams, ensuring seamless API integration, performance and consistent user experience.

Full Stack Developer – Middle-Soft | 2015 – 2020

- Developed and maintained full stack web applications using ASP.NET, React and SQL Server.
- Built responsive, user-centered interfaces, improving usability and product experience.
- Participated in feature design and continuous product improvement, aligning technical solutions with business goals.
- Collaborated within Agile teams, ensuring timely and high-quality delivery.
- Applied clean code and maintainability best practices, supporting long-term scalability.

Web & Mobile Developer – Jalumar S.A. | 2014 – 2015

- Developed hybrid web and mobile applications, focusing on performance and cross-platform compatibility.
- Contributed to UI/UX improvements, researching and applying modern technologies.

Web Developer – Bold | 2013 – 2014

- Development and maintenance of web applications.
- UI layout implementation and visual design.
- Bug fixing and security improvements including database encryption updates.

Tools & Technologies

- Frontend: Angular, TypeScript, JavaScript, React, Redux, HTML5, CSS3, Sass, Less, Responsive Design, Mobile-First Development
- Backend: ASP.NET, .NET, C#, PHP, REST APIs
- Architecture & Best Practices: Domain-Driven Design (DDD), SOLID Principles, Clean Code, Reusable Component Architecture
- Testing & Quality: Unit Testing, Smoke Testing
- Databases: SQL Server, PostgreSQL
- Tools & Methodologies: Git, Jira, Agile/Scrum, CI/CD
- Other: Technical Leadership, Mentoring, UI/UX Collaboration

Education

- Web Design Analyst – Universidad ORT (2014 – 2015)
- IT Analyst – Universidad de la Empresa (2011 – 2013)
- Java & .NET Programming – Universidad de la Empresa (2011 – 2012)

Certifications

- Angular – The Complete Guide (Udemy, 2024–2025)
- React - The Complete Guide (incl. Next.js, Redux) (Udemy, 2024–2026)
- 2 in 1: Python Machine Learning PLUS 30 Hour Python Bootcamp (Udemy, 2025–2026)
- NodeJS: De cero a expert (Udemy, 2025–2026)
- UX Fundamentals (Udemy, 2024)
- NgRx – The Complete Guide (Udemy, 2023)
- Testing Angular Apps with Jasmine (Udemy, 2023)
- Clean Code (Udemy, 2023)
- Advanced CSS & SASS (Udemy, 2023)
